Up to 50% reduction in total break-fix incidents **50%**

80% of organizations experience operational improvements within the first months of use

Ascend TECHNOLOGIES

THE PROCESS AT A GLANCE

EVALUATE
Our experts evaluate your environment for asset migration & disposal, workloads to migrate, and evaluate Software as a Service (SaaS) options.

PLAN MIGRATION
Next, we determine the best path to reduce or eliminate any disruption in your environment for an ideal cloud migration process.

MIGRATE
When a custom plan is in place, we will begin to migrate assets and workloads, plus validate that the cloud environment is performing as expected, pivoting wherever necessary.

OPTIMIZE
After your successful transition to the cloud, Ascend is here to offer continued support. As a trusted Cloud Management partner, we offer monitoring & management options to optimize your continued cloud usage, reduce costs, and improve performance.

Moving to the cloud? *Ascend can help.*
