

# CLOUD SECURITY POSTURE MANAGEMENT

*Integrated risk & threat visibility,  
control, & automated protection.*

## MULTI-CLOUD VISIBILITY

Risk protection & threat detection  
for SaaS & IaaS environments

of organizations store some  
or all of their sensitive data in  
public cloud environments

## COMPLIANCE ADHERENCE

24x7 automated enforcement  
& configuration of policies

Cloud misconfigurations  
caused nearly \$5 Trillion  
in breaches during a  
two-year period

of public cloud security  
failures were the result of  
misconfigurations or mistakes

## AGILE & EFFECTIVE

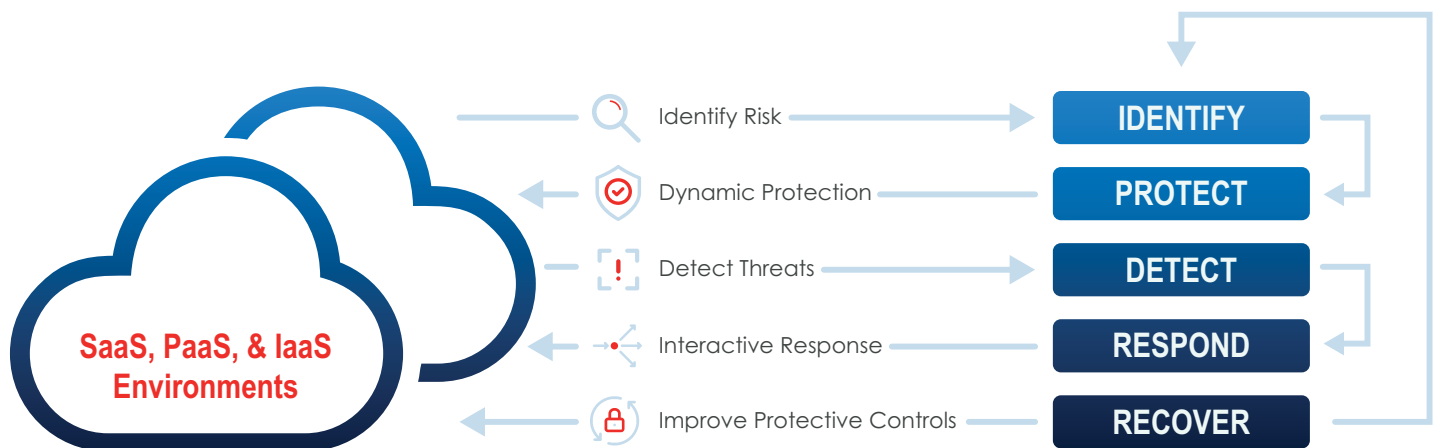

Reliable cloud security  
without impacting speed  
or performance

Put an end to the struggle of measuring  
**cloud security risks** with unified visibility  
and Ascend's **cloud security experts**.
