COMPLIANCE AS A SERVICE

Keeping you on the path to compliance.

EXPERT ASSISTANCE

Help decipher complex compliance requirements

SIMPLIFIED COMPLIANCE

Develop a prioritized plan of action to meet requirements

DYNAMIC PLANNING

Shift from a reactive to proactive approach for compliance audits

Compliance & regulatory frameworks are often complex, making it difficult to determine the most effective path to fulfillment.

14+ Supported framework options to streamline compliance

Assess your compliance adherence up to 50% faster **50%**

**1/3** of organizations manage upward of 25 compliance related policies internally

Ascend TECHNOLOGIES

COMPLIANCE AS A SERVICE

Assess your current cybersecurity program based on your desired framework utilizing a Governance, Risk Management, & Compliance (GRC) Platform to establish a plan to guide you toward audit readiness.

COMPLIANCE REVIEW

Confirmation of your organization's compliance requirements and a thorough documentation review.

TAILORED APPROACH

Compliance is a marathon, not a sprint. Your audit is subject to the desired compliance and current maturity of your organization.

INVENTORY REVIEW

Review hardware/software assets, network and data flow diagrams, organizational structure, policies and processes.

ASSIGN OWNERSHIP

Create a shared responsibility matrix with your service provider(s) and populate Ascend's GRC platform with your current control status.

GATHER PROOF

Receive guidance through the process of gathering proof across subject matter experts within your organization and among your providers.
