UNDERSTANDING THE BUNDLES

Your adversaries are **not created equally**. Get what you need to protect your organization against cyberattack.

SCRIPT KIDDIE

The cybersecurity basics—just what you need to protect against the most basic level of adversary. Our Script Kiddie bundle was built with the "amateur hacker sitting in their basement" image in mind.

ZERO DAY

Next-level security to protect against the rapidly evolving threat landscape. Our Zero Day bundle is the perfect solution to provide vital protection from zero-day malware to your network.

ORGANIZED CRIME

Organized cybercrime groups have evolved. Today, these groups operate just like any other business, with resources to create sophisticated, and often very successful targeted attacks on businesses.

NATION STATE

Everything you need to protect your network from the most sophisticated attacks. Cyber attacks fueled by the power of Nation States have the resources to be successful against businesses like yours.
