IMPLEMENTATIONS

Enable a new Salesforce instance, or new functionality, with maximized ROI through our knowledge of Salesforce's features and vast capabilities

OPTIMIZATIONS

Transform an existing Salesforce instance into a sales, services, marketing, or operations engine by better leveraging features and automation

"We were looking for a Salesforce partner to grow with and drive efficiency and user experience throughout our diverse and decentralized team and Ascend is just that!"

15+

years of experience as a Salesforce partner

95%

of business leaders say prioritizing workflow automation saves about 3.6 hours per week

1,000+

successful Salesforce projects completed

When you choose Ascend, you'll be assigned a **dedicated team** that will support the achievement of your organizational goals and give you peace of mind with a **clearly defined scope, timeline, and budget.**

DELIVERY PROCESS

We believe that the key to a successful project is consistent, and open, communication. This means gaining your trust from the start. That's why our team at Ascend has worked diligently to perfect a process that we're ready to implement with your organization. We'll learn about your business first and then continue to work with you throughout the entire process to ensure your expectations and goals are not only met, but exceeded.

KICK OFF

Gather all project team together to set expectations, align on processes, and define project success.

DELIVER

Execute project on time and on budget using an iterative approach based on best-suited needs of the client.

DEPLOY

Test the configuration and development in partnership with client, train on customization, and deploy solution.

HANDOFF

Confirm achievement of project success and transition org maintenance to client admin or Ascend's Salesforce Managed Services.
