

Ascend Defend

Shield Security Suite

Microsoft's Business Premium license offers a strong security foundation with tools like Defender for Business, Intune, and Azure AD Premium P1. While powerful, these tools alone don't provide complete protection—they require expert configuration, active management, and continuous monitoring to be truly effective. Many organizations lack the internal resources to handle this in-house. That's where Ascend Defend Shield comes in. This premier foundational suite of Microsoft security services combines advanced Managed Detection & Response (MDR) with proactive protective measures. Operated by our 24/7 Security Operations Center (SOC), the Shield stack delivers real-time threat detection, incident response, and detailed reporting—while helping clients get the most out of their Microsoft licensing.

24/7 Security Operation Center

Identity Protection

Multi-Factor Authentication

Endpoint Detection & Response

Email Security

Security Information Event Management

Services You Gain

24/7 Expert-Led Detection & Response

Our Microsoft-Certified Security Operation Center (SOC) operates around-the-clock to monitor your environment, proactively hunt threats, and swiftly respond to incidents—so your team doesn't have to.

Unified, AI-Powered Protection

Powered by Microsoft's global threat intelligence and AI-driven automation, we deliver end-to-end visibility, fast threat response, and real-time isolation of compromised devices.

Cost Efficiency & Maximized Investment

Get the most out of your Microsoft license by activating powerful built-in security tools—expertly configured, managed, and monitored by our team to eliminate wasteful spending on redundant platform.

Trusted, Scalable Partnership

Work with an award-winning partner that delivers not only cybersecurity, but also the full spectrum of IT solutions to support your organization as it scales and evolve.

The Ascend Defend Advantage

Powered by Microsoft

Tailored Protection

As a Microsoft Solutions Security Partner, Ascend seamlessly incorporates premier solutions such as Microsoft Defender and Azure Sentinel into your IT infrastructure. Leveraging our expertise within the Microsoft ecosystem, our team configures and optimizes these solutions to fit your specific environment and security needs.

Microsoft-Certified Specialists

Ascend operates a 24/7 US-based NOC and SOC team with additional monitoring from global cybersecurity experts. Our talented SOC team is backed by multiple prestigious Microsoft certifications, including Security Operations Analyst, Identity and Access Administrators, and Microsoft 365 Security Administration, among others. A high level of expertise ensures excellent service, as reflected in our glowing client testimonials.

Expedited Priority Support

Our exclusive partnership with Microsoft support automatically ensures expedited issue resolution with preferred status. This means your tickets are handled with priority, starting at Level 2 (or Level 3 with justification), and providing comprehensive case management, escalation, and technical consultations for complex cases.
